

Autodesk

Create stunning 3D in less time.

Autodesk 3ds Max

Autodesk

Create breathtaking 3D.

Autodesk Maya

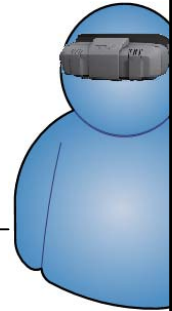

- 1) Create your 3D environment using your favorite 3D Modeling Software
- 2) Export your info to an Alterspace compatible format
- 3) Load your environment on the Alterspace
- 4) From here, you have three options:
 - A) Interactively browse around the environment using a GamePad
 - B) Set a fixed camera travel and save it for later playback
 - C) Look around while the pre set camera travel is going
